NOTE

The advertisers of BLIASAK magazine should choose one of the discounts – for number of publications or for the volume of the ads. The discounts have to be calculated one after another.

The additional discount for advertising in several of our magazines is given when one and the same ad is published in more than one of our magazines during one and the same period. If a weekly magazine is combined with a monthly magazine the ad should be booked for at least 3 issues of the weekly in the month when the ad is published in the other magazine.

BLIASAK magazine is on the market every Tuesday.
Deadline for bookings: Monday of the previous week.
Deadline for materials: Tuesday of the previous week.

TECHNICAL REQUIREMENTS for preparation and submission of advertisements

- **Supported file formats:** Adobe Illustrator EPS (all text in outlines) or Adobe Photoshop TIFF. EPS files should be saved as not higher than Adobe CS3 version. **We not accept PDF files.**
- **Color mode:** CMYK (no additional defined spot colors).
- **Resolution:** 300 dpi [120 dpcm].
- **Advertisement must be left with 5 mm on outer sides for bleed.** The file should not contain any marks for trimming, registration, color swatches or any other additional items. Advertisement should not be left to less than 5 mm inside from the crop area of any graphics and text elements that you don't want to be cut off. An area of 5 mm inside of crop is called safe area.
- **Ready for publishing advertisements should not contain additional layers or channels.** When using effects such as gradients, meshes, transparency, drop shadows, etc. they must be rasterized in the final file submitted for publication in a publishing house.
- **All raster images must be with embedded ICC profile Fogra 39.** Because of roll printing, Total Inc Coverage should not be greater than 300%. All ads have to be delivered together with digital color proof.
- **Color proof is considered to be correct if:**
 - contains Ugra/Fogra CMYK-TIFF media wedge;
 - its patches' color values correspond with the values of the embedded profile/ simulated on the proof;
 - color differences with the simulated values must correspond with ISO 12647 standard. This can be verified by us through iOne colorimeter.
- **The proof must be supplied with set of the following elements:** Advertisement name, Date, Profile containing in the file (proof) as well as the Profile simulated on the proof. It is relevant the simulated profile to be exactly the embedded one in the file Fogra 39.

In case of no proof supplied, no guarantee is given for the quality in the printing.

TECHNICAL REQUIREMENTS for preparation and submission of advertisements

• **Supported file formats:** Adobe Illustrator EPS (all text in outlines) or Adobe Photoshop TIFF. EPS files should be saved as not higher than Adobe CS3 version. **We not accept PDF files.** • **Color mode:** CMYK (no additional defined spot colors). • **Resolution:** 300 dpi [120 dpcm]. • **Advertisement must be left with 5 mm on outer sides for bleed.** The file should not contain any marks for trimming, registration, color swatches or any other additional items. Advertisement should not be left to less than 5 mm inside from the crop area of any graphics and text elements that you don't want to be cut off. An area of 5 mm inside of crop is called safe area. • **Ready for publishing advertisements should not contain additional layers or channels.** When using effects such as gradients, meshes, transparency, drop shadows, etc. they must be rasterized in the final file submitted for publication in a publishing house. • **All raster images must be with embedded ICC profile Fogra 39.** Because of roll printing, Total Inc Coverage should not be greater than 300%. All ads have to be delivered together with digital color proof. • **Color proof is considered to be correct if:** ■ contains Ugra/Fogra CMYK-TIFF media wedge; ■ its patches' color values correspond with the values of the embedded profile/ simulated on the proof; ■ color differences with the simulated values must correspond with ISO 12647 standard. This can be verified by us through iOne colorimeter. • **The proof must be supplied with set of the following elements:** Advertisement name, Date, Profile containing in the file (proof) as well as the Profile simulated on the proof. It is relevant the simulated profile to be exactly the embedded one in the file Fogra 39.

In case of no proof supplied, no guarantee is given for the quality in the printing.

TECHNICAL REQUIREMENTS for preparation and submission of advertisements

- **Supported file formats:** Adobe Illustrator EPS (all text in outlines) or Adobe Photoshop TIFF. EPS files should be saved as not higher than Adobe CS3 version. **We not accept PDF files.**
- **Color mode:** CMYK (no additional defined spot colors).
- **Resolution:** 300 dpi [120 dpcm].
- **Advertisement must be left with 5 mm on outer sides for bleed.** The file should not contain any marks for trimming, registration, color swatches or any other additional items. Advertisement should not be left to less than 5 mm inside from the crop area of any graphics and text elements that you don't want to be cut off. An area of 5 mm inside of crop is called safe area.
- **Ready for publishing advertisements should not contain additional layers or channels.** When using effects such as gradients, meshes, transparency, drop shadows, etc. they must be rasterized in the final file submitted for publication in a publishing house.
- **All raster images must be with embedded ICC profile Fogra 39.** Because of roll printing, Total Inc Coverage should not be greater than 300%. All ads have to be delivered together with digital color proof.
- **Color proof is considered to be correct if:**
 - contains Ugra/Fogra CMYK-TIFF media wedge;
 - its patches' color values correspond with the values of the embedded profile/ simulated on the proof;
 - color differences with the simulated values must correspond with ISO 12647 standard. This can be verified by us through iOne colorimeter.
- **The proof must be supplied with set of the following elements:** Advertisement name, Date, Profile containing in the file (proof) as well as the Profile simulated on the proof. It is relevant the simulated profile to be exactly the embedded one in the file Fogra 39.

In case of no proof supplied, no guarantee is given for the quality in the printing.
